Financial insight
and experience
for today's competitive
business environment

Who We are

Established in 1998 Shaistri & Co offers integrated financial advisory solutions which no business can do without. Auditing, tax compliance and advisory, corporate finance and management counselling are but some of the services we offer. We cover a full spectrum of corporate activities necessary to ensure the healthy growth of your business today. We also offer assistance in protecting your IT assets from viruses, attacks, and internal security threats, capital markets advice, tax-effective supply chain planning, compensation design, M&A planning, post-merger integration services and much more.

Businesses face pressure to satisfy demanding stakeholders and actively manage their risk profile, while turning their investments into recognizable returns. At Shaistri & Co, we specialize in delivering highly strategic approaches which identify and provide solutions for individual business requirements. Amidst economic and political turbulence in the global markets, we partner you to build flexible corporate structures and strategies which safeguard investment returns.

Our Philosophy

To develop and deliver solutions that not just meet rather exceed the business demands of our clients in today's global marketplace.

Our Promise

To deliver value-added advice, products and services to clients with unmatched levels of quality and integrity

Our Approach

To listen to your business needs, to your issues, challenges and business operations. And then to apply our financial savvy and know how to bring about change, change for the better. By working closely with you, we tailor our approach to meet your individual needs.

Our Clients

Our clients range from some of the growth companies, private businesses both at home and abroad in industries as versatile as property, transportation, wholesale, retail, manufacturing and trading.

Our Team

At Shaistri & Co, we have built a multi-disciplinary team of professional advisors with extensive experience and a thorough understanding of the financial landscape.

We provide a hands-on approach in advising your business, whether it is large or small, taking the time to get to know the individuals involved as well as gaining valuable insight into the industry and the marketplace your business operates in..

Our Services

Assurance Services and Advisory Services

As the name implies, audit assurance services provide value and comfort to decision makers that information they use can be relied on for the purpose for which they wish to use it. We keep you up to date with relevant financial reporting and related legislative and technical changes throughout the annual cycle, as well as providing the most appropriate advice to maximise the potential of your business.

Audit

Dependable and accurate financials are the foundation of your business. They are essential for quality decision-making. Our audit services deliver methods and solutions which enhance your business needs. With a focus that's specific to your business and industry, our audit plan is tailored to your particular operation and reporting requirements. So whether you're seeking additional capital, better terms from banks, courting investors or just looking for ways to improve operations, you'll have information you can depend on to make educated decisions.

Your time is valuable and we recognize that an audit can disrupt your normal work environment. That's why our audit plans are developed with efficiency and relevance as top priorities. We use the latest in computer assisted audit techniques to access information, identify trends and make comparisons that are not possible manually.
